

Rocky J Malloy Founder & CEO

National School Chaplain Association

Rocky Malloy is a Christian missionary, visionary leader, bestselling author, and founder and CEO of the National School Chaplain Association (NSCA), a nationally recognized, constitutionally compliant chaplaincy organization with decades of experience delivering spiritual care within public institutions.

His life's mission is to serve the Lord Jesus Christ by bringing the hope, truth, and transforming power of the Gospel to what he believes is the largest unreached people group in the world: school-aged children. That conviction fuels his bold vision to place a certified chaplain on every school campus in America.

Under his leadership, NSCA and NSCA Academy have trained and certified more than 49,000 chaplains now serving in over 41,000 schools across 23 countries including the United States. Rocky also serves as Chairman of the Advisory Board for the United States Family Chaplaincy Network.

For nearly three decades, Rocky has devoted his life to bringing faith-based spiritual care, moral clarity, and emotional resilience to students, educators, and families through the steady presence of school chaplains. An ordained minister, he is widely regarded as a leading subject-matter expert on school chaplaincy, having testified before state legislatures, federal agencies, and faith leaders within the Trump administration on the role of chaplains in strengthening education, mental health, and community well-being.

Rocky's passion for Christ has taken him far beyond classrooms and conference rooms into some of the most dangerous regions of the world. He ministered amid the Sandinista conflict, the Bolivian uprisings, and deep within rebel-held territory in Colombia, serving children and families where hope was scarce and faith was costly. It was in a combat zone on the Honduran/Nicaraguan border that he met his wife, Joske, a Dutch nurse, super model, and fellow frontline missionary.

Together, they discovered that one of the most effective ways to protect children from trafficking, exploitation, organ harvesting, and abuse is to keep them in school. Their methodology was simple and powerful: if Jesus was present in the school, children would want to be there as well. That model has been working for nearly 30 years.

In 2021, the Malloy family returned to Texas to expand this proven model into U.S. public schools. Today, Rocky Malloy stands as a tireless advocate for parental rights, religious liberty, spiritual renewal in education, and the restoration of hope to the next generation through school chaplaincy.
